

## Product Features of Rhinestone Stickers

Rhinestone stickers are one kind of artificial crystal. Due to the current world diamond production coming mainly from two sides of the Rhine river in Austria and Czech, so it is also known as the Rhine stone (Rhinestone). Therefore, the mainstream of diamond stone includes Austria rhinestone and Czech rhinestone. And the rhinestone stickers can also be divided into Austria rhinestone stickers and Czech rhinestone stickers.

The Austria rhinestone is a actually Austria SWAROVSKI company production of imitation Crystal Rhinestone with hot fix rhinestones and flat bottom rhinestone, collectively, is usually called SWAROVSKI stone. Austria rhinestone stickers are of better quality than Czech, so the price is also more expensive. Of course, by the quality ranking, there are also other rhinestone stickers such as rhinestone in the Middle East, the domestic diamond, acrylic diamond etc..

Their relationship is shown below:
